

# **ARMAFLUE**

**ULTIMATE PERFORMANCE FLUE**

# Flexible Flue

## 316 Grade Flexible Flue

### 316 (Double-Ply) Flexible Flue

Features	Fuel Types
316 double skin stainless steel liner	Gas
T600 temperature rating	Oil
Multidirectional - can be fitted either direction	Dry Logs
No flaps, welds or folds that come apart	Coal
Exceptional crush resistance	*Not recommended for smokeless fuels
Ultra smooth bore	
80mm up to 350mm	
Available in any length	

## 904 Grade Flexible Flue

### 904 (Double-Ply) Flexible Flue

Features	Fuel Types
904 double skin stainless steel liner	Gas
T600 temperature rating	Oil
Multidirectional - can be fitted either direction	Dry Logs
No flaps, welds or folds that come apart	Coal
Exceptional crush resistance	Smokeless fuels
Ultra smooth bore	
80mm up to 350mm	
Available in any length	

## Gas & Oil Flexible Flue

### Gas & Oil 316 (Single-Ply) Flexible Flue

Features	Fuel Types
316-single skin stainless steel liner	Gas
T400 temperature rating	Oil
Multidirectional - can be fitted either direction	
No flaps, welds or folds that come apart	
100mm up to 250mm	
Available in an length	

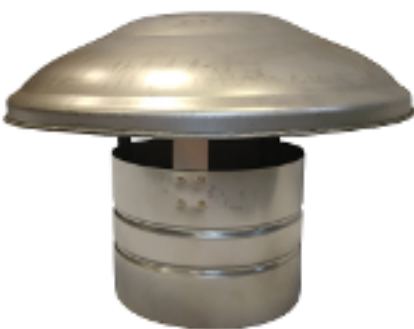

# Pot Hanger Cowls

**Pot Hanger Rain Cap  
(Screw Fit)**

43PHRC100*	100mm	Black
43PHRC125*	125mm	Black
43PHRC150*	150mm	Black
43PHRC175*	175mm	Black
43PHRC200*	200mm	Black

\*125mm & 150mm sizes are attached to flexible pipe by a threaded spigot, all other sizes are attached with a jubilee clip.

**Economy Flexi Rain Cap  
(Screw Fit)**

43RC100	100mm	Stainless Steel
43RC125	125mm	Stainless Steel
43RC150	150mm	Stainless Steel
43RC200	200mm	Stainless Steel

Attached to the flexible flue and used in conjunction with the top plate and top clamp.

**Pot Hanger Rain Cap  
(Jubilee Clip)**

32PHRC125	125mm	Stainless Steel
32PHRC150	150mm	Stainless Steel

Fixed to the flexible flue by a Jubilee clip.  
Will work with any brand of flexible flue pipe.

**Anti-Downdraught Pot Hanger  
(Jubilee Clip)**

32PHCT125	125mm	Terracotta
32PHCT150	150mm	Terracotta

Additional benefit of anti-downdraft properties. Fixed to the flexible flue by a Jubilee clip. Will work with any brand of flexible pipe.

# Alternative Multi-Fuel Cowls

## Colt Top All Purpose

36CCTAP

Suitable for pots up to 250mm\*\*

36CCTAPT\*

Suitable for pots up to 250mm\*\*

Prevents downdraught as well as keeping rain/birds out of your chimney. Suitable for use on all fuels. Retail version is fixed with straps, the trade\* version is fixed with bolts.

\*\*Internal Dimensions

## Colt Top 2

36CCT2AP

Suitable for pots up to 250mm\*

Low cost anti-downdraught chimney cowl for use with any fuel type.

\*Internal Dimensions

## Colt High Top

36CCHT

Suitable for pots 170 to 250mm\*

Prevents bird and animal entry and reduces the potential for clogging by soot or debris.

\*Internal Dimensions

## Jackdaw Guard With Hood

36CJGH

Suitable for pots up to 250mm\*

Prevents downdraught as well as keeping rain/birds out of your chimney.

\*Internal Dimensions

## Low Bird Guard

43BGLB

Suitable for pots 170 to 250mm\*

Prevents bird and animal entry and reduces the potential for clogging by soot or debris.

\*Internal Dimensions

## Dragon Revolving Cowl

36CDRA125

125mm

36CDRA150

150mm

36CDRA200

200mm

The cowl positions itself in the direction of the blowing wind, shielding the chimney and at the same time increasing the draft in the chimney.

# Gas Cowls & Accessories

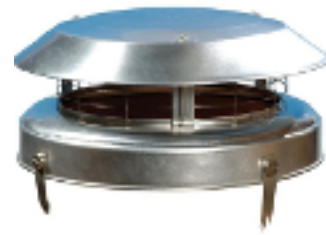

## Colt Top Gas

36CCTG

Suitable for pots up to 250mm\*

Prevents downdraught as well as keeping rain/birds out of your chimney. Suitable for gas (aluminium).

\*Internal Dimensions

## Colt Top 2 (Gas)

36CCT2G

Suitable for pots 170 to 250mm\*

Low cost anti-downdraught chimney cowl. Suitable for use with gas (aluminium).

\*Internal Dimensions

## Gas Terminal Cowl

43GTC100

100mm

43GTC125

125mm

43GTC150

150mm

Low cost gas terminal cowl. Suitable for gas (aluminium).

## Gas Top Fixing Kit

43GTFK100

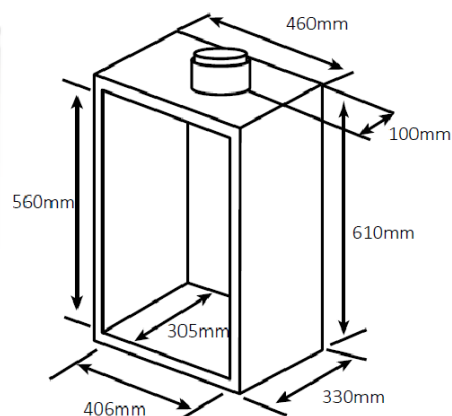

100mm

43GTFK125

125mm

43GTFK150

150mm

## Gas Collector Box

29CCOLBOX

610x460x330mm

# Adaptors & Increaseers

**Multifuel Adaptor/Increaser  
(Screwfit)**

43MA100*	100mm	Adaptor
43MA125	125mm	Adaptor
43MA150	150mm	Adaptor
43MA175*	175mm	Adaptor
43MA200*	200mm	Adaptor
43MI100*	100-125mm	Increaser
43MI125	125-150mm	Increaser

Vitreous enamel to flexible flue adaptor/increaser

\*125mm and 150mm sizes are attached to flexible pipe by a threaded spigot, all other sizes are attached using self-tapping screws.

**Multifuel Adaptor/Increaser**

32MA125	100mm	Adaptor
32MA150	125mm	Adaptor
32MI125	125-150mm	Increaser

Vitreous enamel to flexible flue adaptor/increaser. Attached to the flexible flue using built-in wing nuts.

**Sump Adaptor**

43SUMP125	125mm	Stainless Steel
43SUMP150	150mm	Stainless Steel

The sump adaptor is used as an alternative to flexible flue and should only be used the chimney is tested to be safe and following building regulations

**Condensing Boiler Adaptors**

43CAGRA	Grant/Firebird
43CATUR	Turko
43CAWAR	Warmflow

Condensing boiler to flexible flue adaptor  
(L-R: Grant, Turko, Warmflow)

**Clay Liner Adaptor**

36M58ADAPTA	125 to 200mm	Stainless Steel
36M68ADAPTA	150 to 200mm	Stainless Steel

The clay liner adaptor is used as an alternative to flexible flue and should only be used if the chimney is tested to be safe and following building regulations

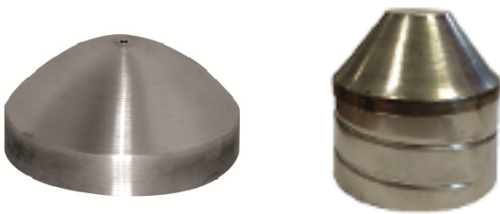

# Other Accessories

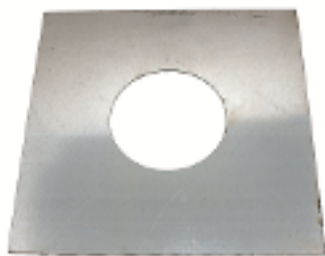

**Flue Gatherer Hood**

43FG175300300	175mm	300mm x 300mm
43FG175600300	175mm	600mm x 300mm
43FG200300300	200mm	300mm x 300mm
43FG200600300	200mm	600mm x 300mm
Used with an open fire. The hood gathers the flue gases and has an adaptor at the other end to attach to flexible flue, allowing you to safely line your chimney.		

**Nose Cone**

43NCS125	125mm	Screw Type
43NCS150	150mm	Screw Type
43NC125	125mm	Self Tapper
43NC150	150mm	Self Tapper
43NC175	175mm	Self Tapper
43NC200	200mm	Self Tapper
The nose cone is attached to the end of the flexible flue and a rope attached to the other end. This allows the flexible flue to be pulled down the chimney.		

**Top Plate**

43TP125	125mm	Stainless Steel
43TP150	150mm	Stainless Steel
43TP175	175mm	Stainless Steel
43TP200	200mm	Stainless Steel
Galvanised plate with opening for a flexible flue/vitreous enamel pipe.		

**Top Clamp**

43TC125	125mm	Stainless Steel
43TC150	150mm	Stainless Steel
43TC175	175mm	Stainless Steel
43TC200	200mm	Stainless Steel
The top clamp can be used in conjunction with the top plate to secure flexible flue at the top of chimney (under the clay pot).		

**Flexi-Flexi Joiner**

43FJ125	125mm	Stainless Steel
43FJ150	150mm	Stainless Steel
Adaptor to join 2 pieces of flexible flue with same diameter. Attached to flexible flue with self tappers.		

**Register Plate**

43RP1000	125mm/150mm
Comes with removable sweeping access and fixing brackets	

Dealer Stamp
